PROFESSIONAL SUMMARY

Agentic AI Engineer and Full Stack Developer with hands on experience building production grade autonomous AI systems, multi-agent orchestration platforms, and scalable SaaS applications. Proficient in Python, TypeScript, Next.js, FastAPI, and cloud-native architectures. Shipped 6+ complex projects with 97% test coverage through Spec-Driven Development methodology.

EDUCATION

Agentic AI Engineering Track

Governor Sindh Initiative for GenAI, Web3, and Metaverse
2024 to Present

Active participant in structured hackathon progression and AI projects.

Diploma in Construction DAE

Pakistan Navy Polytechnic
Institute PNPI

2020 to 2023

Matriculation in Science

Bahria Model School | 2017

EXPERIENCE

Agentic AI Engineer

Freelance / GIAIC Hackathons | 2024 – Present

Personal AI Employee : 7 agent skills, 5 MCP servers, 97% test coverage, 122 commits, A2A orchestration, Oracle Cloud (Platinum Tier)

Digital FTE Factory CRM : 7 FastMCP tools, 5 skills, 101 tests, Next.js + FastAPI + Kafka

Physical AI Textbook : Docusaurus + RAG + Qdrant, multilingual (EN/UR/JP)

TaskFlow : AI task manager, Kubernetes on Oracle Cloud

Factory de Odoo : Architecture reviewer, 33,200+ lines, 4,048 tests

TECHNICAL SKILLS

AI/Agents : OpenAI Agents SDK, Claude API, MCP, FastMCP, A2A, LangChain

Languages : Python, TypeScript, JavaScript

Frontend : Next.js 15, React, Tailwind 4, Framer Motion

Backend : FastAPI, Node.js, REST APIs

Databases : PostgreSQL, Neon, Kafka, Qdrant

Cloud : Oracle Cloud, Docker, Kubernetes, Vercel, HF Spaces

Tools : Git, VS Code, Claude Code CLI, WSL2, Linux

LANGUAGES

English (Professional) | Urdu (Native)
